PAGE 1

Item #3

p 3C-4, 3-31 Our consultant has reviewed the possible available locations and has determined that one additional point would be valuable. An additional control point will be added, making two points outside the area of mining influence.

Item #5

App 7-M The existing sampling location BC-2 is recommended as an alternative monitoring location. See text for other changes. Only the recommendations section has been changed.

PAGE 2

Item #2

Plate 3-4 The coal outcrop is shown.

Item #3

Plate 6-1 Plate is still in the revision process and will be forwarded to the Division.
